CHOICE – HOW & WHAT

Human beings are blessed with *mind and ability to think*, it enables them to *make choices* i.e. evaluating various *options basis algorithms* controlled by Mother Nature or One Creator and deciding what best suits their requirements.

Similarly, we can choose *what kind of life* we want to lead, people may to fulfil their desires, people may become saints and renounce everything, some may develop new skills/ hobbies, some may devote their life to social qguses or do many other things

What we choose decides what follows and then within the *new circumstances* we make more choices and thus we progress. It is an ongoing process, we are *constantly making choices* and impacting our life and life of the others around us.

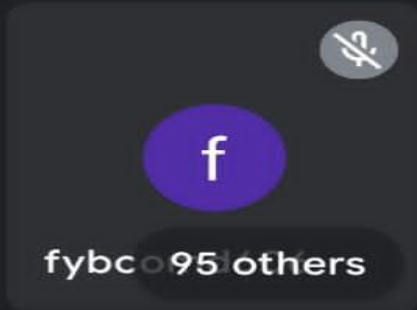

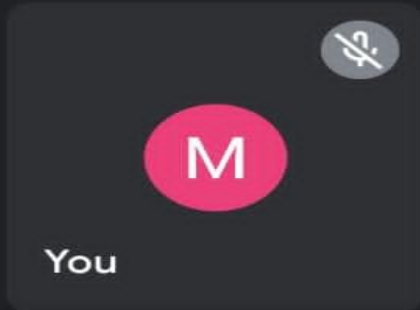

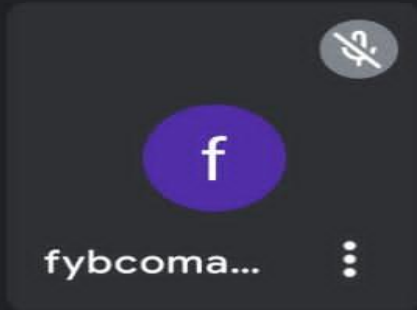

Greed, Fear and Ego may come in the way to making 'correct' choices.

Energy is very valuable, it must be channelized. Eg, when we plan, we should only plan and not do something else (energy will be not used for one purpose but will be dissipated. Fear, anxiety, greed and ego are all 'eaters' of energy, which otherwise can be used very wisely.
