## Part B

### **CRITERION I – CURRICULAR ASPECTS**

#### **1.1 – Curriculum Planning and Implementation**

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Effective curriculum delivery is the prime focus of the institution. Therefore, the institution has digitized its classrooms. Classrooms are equipped with the infrastructure to enable teaching through ICT and the teachers are encouraged to update and train themselves in effective teaching- learning methodologies. The mechanism for curriculum delivery begins with the distribution of the time table before the beginning of the academic year. The Time -Table committee of the college provides the departmental time-table via email to the departmental heads and the departmental heads prepare the individual time-table and email it to the IQAC. Hard copies of these individual time-tables are submitted to the time- table committee after procuring signatures of the concerned faculty of the department and the Principal. The teachers submit teaching plan to the IQAC through email for the entire academic year and also submit scan copies of the syllabus completion report duly signed by the head of the department at the end of the academic term. An Induction cum Orientation Programme is conducted at the beginning of the academic year for all the first year students. The programme is conducted for each division of every class by the teachers allotted for the programme. A Notice with the schedule and the name of the faculty members allotted class-wise for the programme gets circulated among the staff and the students. In the programme, students are introduced to the subject teachers and the details of scholarships available. They are also oriented towards the examination system along with optional/elective subjects

available, the attendance rules of the college, facilities available at the college, grievance handling procedures including anti-ragging, code of conduct for discipline and students' related committees of the college. The College has an efficient Lecture Monitoring Committee to see that no class room is going free. College emphasizes on student - centric learning and therefore the class rooms are equipped with LCD Projectors and White-Screens to enable teachers to avail ICT in teaching for better comprehension of the subject. The classrooms also have white board for traditional teaching methodology in the case of subjects like Accounts and Mathematics where ICT may not be of much help. To maintain classroom discipline, CCTV Cameras are installed in all the classrooms and are monitored from the Principal's cabin. Many teachers prepare Power Point Presentations and share the same with students in the students' 'Whatsapp' group for their benefits. Feedback from the students on teachers and the curriculum on ten point scale on ten questions are taken on a regular basis. Teachers who score fewer points in the feedback are called by the Principal and asked to improve their classroom teaching. An effective Attendance and Mentoring Committee looks into students' attendance, academic performance, academic and personal issues. Every class has one mentor accessible to students for guidance, counselling and grievances. The monthly attendance report is displayed by the mentor in the class and is sent to the students through MIS. Remedial lectures are also engaged for academically weak students.

Our library encompasses a wide variety of resources for the academic benefit of the students and teachers. From print resources to digital documents, the library caters to the current needs of the readers. To ensure maximum utilization of library, we have library orientation session at the beginning of the academic year to introduce the students to the working of the library, to guide them to access available library resources, hands on training on accessing books through online catalog, searching of e - resources for academic work. Library cards are issued to the students for accessing library books. Computers are available to the students for their project and research work. A register is maintained to keep the log of number of times the computers are used. Daily statistics of books issued and returned is maintained. Usage report of NLIST database is recorded. Teachers are encouraged to bring students to the library for making them aware of their respective subject books available. Educational videos are shown to the students. To provide improved services the library has been renovated. New features are added to the library. The library website is upgraded. Seven more computers are added to the library.

Installation of Android kiosk is done to access OPAC. A Digital LED Board, Signage TV and Door access control system, have been installed. Students have been provided with RFID cards. Document scanner to scan question papers and important articles has been introduced. Opletac Clear Reader machine is provided to the visually challenged readers. NVDA screen reader is installed to aid the low vision readers for computer access. The laboratories of Computer Science and Information Technology serve several purposes of diverse groups.

The basic purpose is to conduct the practical sessions for the students of first, second and third year of B.Sc. (Computer Science and Information Technology) programmes. The students of the T.Y. B.Com. studying the course of Computer Applications perform the practical. Similarly, students of BMM, BMS, BAF, BBI programmes use the computers for their practical sessions. Many of the degree students avail the facility for making power point presentations for their course work and projects. Apart from this, the laboratory is used for online admissions, where the in house students are given the facility for filling the college and university online forms. They can avail the facility of editing their forms. The faculties of other departments also avail the facilities of the laboratory for academic surfing, setting and printing question papers. The Computer Science Department is also a CAP center, where the inhouse and external faculties undertake assessment of the answer sheets. About 15 Desktop computers are loaded with the application for OSM. The desktop computers and laptops are also provided for the seminars/ workshops conducted by the various departments of the college.

## 7.2 – Best Practices

### 7.2.1 – Describe at least two institutional best practices

**BEST PRACTICE - I**

- Title of the Practice: Financial patronage
- Goal: To provide a financial help to teaching, non-teaching staff and Students of the college.
- The Context: Dr. Rizvi had set up Rizvi Education Society to fulfill his desire to help the less fortunate who are unable to pursue higher education. The stated vision of the college is 'Upliftment of Muslim minority students through Quality Education' to this effect, keeping in mind the rules for minority institutions, our intake of students ranges from the affluent to the under privileged section of the society as well as quite a few first generation learners too. We believe in empowering and transforming the lives of the students through education.
- The Procedure: A considerable size of our student's population belongs to the lower economic strata. Many a times students find it difficult to pay their fees and therefore,
  - The management provides them with the option of paying fees in multiple installments.
  - The management has also very generously set up two scholarships [ABIS Rizvi minority Educational Scholarship and Saquib Rizvi Sports Scholarship] in academic and sports respectively to help the needy and deserving student cash prize towards, ABIS A.H. Rizvi Memorial award, for the outstanding performance

and academic achievements on 29-2-2020, total of Rs 30,000/- [Thirty Thousand] Rs 5,000/- each for six deserving students were given. iii) Our Class-IV employee Mr. Arshad Patel was also helped by the management on 13th December, 2019 by giving Rs 1,00,000/- [one lakh] for the treatment of his wife suffering from throat cancer. iv) Our management also provides complete support to our faculty members to organize seminars/ workshops/ conference at national and international level. 5. Evidence of success: i) Some teaching staff contributed Rs. 25000/- [Twenty Five Thousand] cash to help Mr. Pravin Dubey parent of a students to pay fees on an urgent basis. ii) Some of the students completed their degree, only after receiving the financial support. iii) Head of the physics department Dr. Abhay Ranade paid the feed of rupees 7380/- (Seven thousand three hundred eighty only) to TY B.Sc Students Sachin Dubey. 6. Problems encountered and resources required: 1) Increase in the number of students, Non-Teaching staff who actually needs money either for education or for medical crisis. 2) The time gap between the application process and actual sanctioning of the fund should be reduced especially for medical help. Therefore, it is essential for immediate sanction of the application. 3) The biggest challenge is the identification of the deserving candidate. We also have identified that a small cross section of students had missed such help. 4) As the numbers of needy students are increasing year after year, the amount of financial support needs to be increased. BEST PRACTICE - II 1. Title of the Practice: Skill Enhancement/ bridging the gap between Academia and Industry 2. Goals: ? To encourage teaching staff to adopt to new technological advancements including ICT adaptation in each classroom as well as online teaching. ? Employability skills enhancement of students on continues basis. ? To helps students nurture and develop their skills alongside their main stream degree. 3. The Context: It is said that to start something and to fail, is worse than NOT to start anything at all. It is always the start that requires the greatest effort. Entrepreneurship is an important driver of economic growth and innovation. Thus, nurturing it ensures a positive social and economic impact. As an educational institution, we realize that embarking on an entrepreneurial career path to quote being your own boss is exciting for the students. We consider it our responsibility to guide and make our students aware about their own intent and potential, their research temperament, their mindset, as well as the need to network and take timely help or advice. Towards this purpose, our management encourages us to organize short-term skill based courses for our staff and students. These courses provide hands on training to develop practical skills as per industry need so as to increase employability skills of the students. Skill based courses promote independence or entrepreneurship. As it is a latent skill present in the students that is developed, the learning is faster and the outcomes are more fruitful. As mentors of our students, we want the best for them. It is thus a fulfilling experience for us to facilitate vocational skill based courses alongside mainstream degree courses to ensure a greater marketability for our students as well as a more satisfying experience for them. 4. The Practice: Career Guidance Cell / Placement Cell ? To Empower women and girls working in retail, National Yuva Co-operative Society has conducted training for girls under CSR of trust, on August 2019 to July 2020 (For 1 year) 220 students were selected [MOU] ? Campus to Corporate Careers [C2C] program was held by 'Techno serve Business Solutions to Poverty' from July 2019 to May 2020 [for 1 year] 7 students were selected, 6 students were short listed [MOU]. ? NIIT Campus recruitment by NIIT and ICICI Bank on the month of August 2019. 62 students registered, 17 interviewed and 14 were shortlisted. ? Training for teaching skills by Dsimplify in the month of October 2019, 115 students selected. ? BSE CSR project by BSE institute on 24 th June 2019. 89 students were selected. ? Educational visit to RBI Monetary Museum by Planning Forum Committee in the year (2019-2020) where 02 teaching staff and approx. 40 students participated. ? Orientation workshop at P.D. Hinduja Hospital, Mahim, Mumbai - 16 was held on

carrier in "Health Science Industry" on 28 th February 2020. Around 60 students of science and 4 teachers attended the workshop. The workshop was organized by science association and all science departments. ? Students Council amp Career guidance cell in association with 'Help Yourself Foundation' and 'Global Opportunities Pvt. Ltd. had organized a 'Global Education Fair' on Saturday 7th December 2019. The aim was to benefit young minds of our college by exploring them to opportunities is overseas education. The representatives from different Universities from various countries were in our premises. ? Workshop on Bonsai, Bottle Garden, and flower arrangement was held by Dept.of Botany. 70 students were trained for the said activity. ? Dept. of Mathematics amp Statistics conducted :i. Two day workshop on "Advanced Microsoft Excel" on 7th and 8th January 2020. 45 students 15 staff members were trained in the workshop. ii. Conducted 2 day Online National Faculty Development program on "Statistical Analysis of Quantitative data" using advance excel for research scholars on 3rd and 4th June 2020. More than 3200 students from all over India registered, but 1500 students actively participated. • Computer Science Information Technology dept. conducted : i. Placement drive in collaboration with IDBI bank on 7th Jan. 2020. 02 students attended the drive. ii. Employability Training Program named 'Campus to Corporate" in collaboration with an NGO - Association of Muslim Professionals on 11th Jan. 2020. 105 students had participated in the program. iii. Pre placement selection process for the placement in various companies in association with Squad InfoTech Pvt. Ltd was held on 13th Jan 2020. 57 students attended out of which 5 students were selected. iii. Pre placement selection process for the placement in various companies in association with Squad InfoTech Pvt. Ltd was held on 13th Jan 2020. 57 students attended out of which 5 students were selected. iv. Placement Drive by 'Endurance International Group' was held on 14th Jan 2020. 36 students attended out of which 1 student got selected. v. Webinar on "Basics of Web development Technologies" was held on 2nd May 2020. 128 students attended the webinar. vi. A pre-placement talk by 'Silver link Technologies' was held on 8th August 2019. 52 students attended out of which 01 student got selected. • Major and Minor Research Projects to be submitted to different Research Organizations like University of Mumbai, ICSSR and IMPRESS and few more. 5. Evidence of Success • Many of our teachers have successfully adopted majority of modern pedagogic styles and ICT for their offline online classrooms. • Study materials are uploaded on the College Library website. • Expected improvement in result. • A lot of our students have been absorbed by the industry and some have been managed to provide their families by using the skills that they have learnt. 6. Problems Encountered and Resources Required • The demand for ICT resources is increasing and paucity of funds has been the biggest impediment which may dampen the spirit of technology adopted by teachers. • Maintenance upgradation of the systems has turned additional financial burden. • Although these courses introduced the students to specific skill set, they are too short for the entire skills building that could help the students more. • A good interface with the industry experts who will also provide hands on training.
